

Speaker(s)

Using 4-port mini switcher HD

Advantage:

small, less expensive, can stream directly from it, has titling, cuts, etc.

Disadvantage:

use of HDMI cabling limited to 26 ft.

No preview

Computer handling required

Here we use direct output from computer to output. Program output is only available on stream.

Note that cameras may record their own copy for post-production.

May want audio for sync.

Question: should we put a Cloner box in the loop for presentation?

Main Equipment
ATEM Studio Mini
Scaler
Audio Mixer?

Rough Cost: \$500
recording with computer
Less w/o Scaler
